

DAVID IBRAHIM

PHP Developer

Long Eaton, Nottingham, UK • 07484 341365 • ibrahimdavid08@gmail.com

PROFESSIONAL PROFILE

Expert PHP Developer with 3+ years of commercial experience, specialising in PHP (CakePHP 4.5) as my primary technology stack. Currently leading PHP backend development on the main product at SortGroup, alongside separate project work in NestJS and .NET. Proven track record architecting and optimising RESTful APIs, complex database pipelines, and automated testing suites. Adept at building scalable, secure, and maintainable systems within cloud and containerised environments (AWS, Docker), while collaborating effectively across teams to meet delivery targets and client expectations.

CORE TECHNICAL SKILLS

PHP / CakePHP 4.5 ★ Expert	RESTful API Design ★ Expert	MySQL / PostgreSQL • Proficient
NestJS / TypeScript • Proficient	.NET / C# • Skilled	Unit & E2E Testing • Proficient
Docker • Skilled	AWS • Knowledgeable	Playwright • Proficient
Penetration Testing • Skilled	Python / Data Analysis • Competent	Agile / Jira • Experienced

EMPLOYMENT HISTORY

PHP Developer SortGroup • Nottingham, UK	May 2024 – Present
- Architect and deliver RESTful APIs using PHP (CakePHP 4.5) as the primary language on the main product, building on extensive PHP experience and following MVC principles and clean code standards throughout. - Engineered a database anonymisation pipeline in PHP that automatically anonymises the live database and deploys it across UAT, Dev, and Test environments — significantly reducing manual effort and data risk. - Designed and optimised complex MySQL and PostgreSQL queries, improving query performance and data integrity across multiple services. - Developed NestJS microservices and .NET components on separate internal projects, broadening backend versatility across the team. - Built a robust, non-flaky Playwright automated front-end test suite, achieving a consistently high pass rate and reducing regression time. - Produced extensive backend unit test coverage, improving code reliability and team confidence in releases. - Conducted in-house penetration testing to identify and mitigate security vulnerabilities prior to deployment. - Leveraged Docker for containerised development environments, ensuring consistency across local, staging, and production builds. - Applied AWS knowledge to support cloud deployments and environment management.	
Developer Technical Specialist Benefex • Nottingham, UK	Oct 2022 – May 2024
Delivered bespoke employee benefits configurations in C# (.NET), handling complex eligibility rules for up to 25 dependants per client.	

- ▶ Simplified back-end functionality for private medical insurance and income protection modules, reducing future development time.
- ▶ Created reusable SQL diagnostic scripts now adopted by colleagues to investigate and resolve database issues efficiently.
- ▶ Led multiple concurrent projects through the full lifecycle — design, build, and QA — ensuring delivery to specification and client satisfaction.
- ▶ Identified and resolved defects in legacy C# code, improving system stability and reducing support ticket volume.
- ▶ Communicated directly with clients to clarify requirements, maintaining a high standard of professionalism.

Lifeguard | Lambeth Active • London, UK

May 2019 – Sep 2022

- ▶ Led regular emergency-response training sessions and enforced safety protocols, maintaining a safe environment for all pool users.

Customer Service Representative | NatWest Bank • London,

Jan 2018 – May 2019

UK

- ▶ Achieved an 87% customer satisfaction rate by resolving complaints with empathy and efficiency.
- ▶ Trained and mentored new representatives on best practices and service standards.

EDUCATION

BSc Computer Science (2:1) | Kingston University • London,

Sept 2019 – 2022

UK

- ▶ Graduated with a high 2:1; final project focused on PHP backend development and database architecture.
- ▶ Modules included database design, data analysis (Python & Tableau), and software engineering principles.

A-Levels | Elm Green 6th Form • London, UK

Sept 2016 – Jun 2019

- ▶ Information Technology, Core Maths, Business Studies

LANGUAGES

English — Highly Proficient **Hungarian** — Native Speaker
